Submitted to Government for information.

for Chief Engineer, P.W.D.

To the Secretary to Government,
Public Works Department.

Copy to the Superintending Engineer, Bellary Circle

Copy of Endorsement No.1161 G., dated 17th May 1937, from the Superintending Engineer, Bellary Circle.

****

Sub:- Water Application Clerk for Hospet Sub Division of Bellary Division.

Copy of Executive Engineer, Bellary Division No.509 S.E. dated 1st May 1937 forwarded to the Chief Engineer, P.W.D. (General, Buildings and Roads) Madras for information.

In the statement showing the establishment sanctioned on a quasi permanent basis etc., which accompanied the proposition statement in respect of the requirements of Bellary Circle under lower subordinate, office and petty establishment for 1937-38 submitted in this office No.16-G dated 8th January 1937, one clerk on Rs.30/- for Hospet Sub Division of Bellary Division for six months every year was included. The services of this clerk will be terminated on 15-5-1937 afternoon. The existing sanction for 'six months' in the year may, in the circumstances, reported by the Executive Engineer be altered to 'four months' as the clerk will not, in future, be necessary for more than 'four months'.

****

Copy of letter No.651 E., dated 21st April 1937 from the Sub Divisional Officer, Hospet to the Executive Engineer, Bellary Division.

Sub:-- Water Application Clerk.

Ref:- Divisional No.1286 S., dated 15th April 1937.

A statement showing the number of water applications received and disposed of during the last 3 faslis is enclosed

Due to the issue of standing permits recently for the Basavannah and Raya Channels and the Kamalapuram tank there may in future be only a few applications under those sources.

her sources during the last 3 faslis has been 85 in 1345.

Ordinarily we may expect about 100 applications in all in future - allowing for possible extension of irrigation in the channels.

here will also be some correspondence relating to the standing permits.

The latest date for receipt of applications for sugar cane is 31st January and that for paddy is 30th April. Applications are usually being received from December to April.

January to April will ordinarily be busy months for the Sub-Division. It will not be possible for the two permanent clerks of the Sub-Division to devote any portion of their time to deal with the water applications.

I am therefore of opinion that the water application clerk will be required for about 4 months - say from 15th January to 15th May

As the clerk that is appointed for the post is invariably new both to the Department and to the job he takes about a fortnight to get acquainted with the rules and practice and no appreciable work can be expected during the 1st fortnight.

The services of the special clerk will be required till 15-5-37 during the current year.
